SUMMARY

Computer Science graduate with hands-on experience in software development and public sector digital transformation through the ICT Authority’s Presidential Digital Talent Internship Programme. Skilled in building and integrating web applications using Angular, React.js, Python, PostgreSQL, and RESTful APIs, with experience developing performance management systems, dashboards, and data-driven tools. Proven collaborator with a strong foundation in system design, problem-solving, and secure development practices, complemented by training in cloud and network security.

EDUCATION

Egerton University Bachelor of Science (B.S.) in Computer Science Second Class Honours Upper Division Aug. 2020 – Nov.2024 <i>Relevant Coursework:</i> Structured Programming, Data Structures and Algorithms, Object Oriented Programming, Database Systems	Nakuru, Kenya
Moi Tea Girls Secondary School High School KSCE Certificate Mean Grade B+	Kericho, Kenya Feb. 2016 – Nov 2019

WORK EXPERIENCE

Nairobi County Government Software Developer	Nairobi, Kenya Feb.2026-Present
---	--

Project/Performance Information Management System (PIMS)

- Contributing to the development and maintenance of a county-level project tracking and financial reporting system using Angular, Django, PostgreSQL, and RESTful APIs.
- Implementing and supporting project monitoring and reporting modules.
- Performing database operations, data validation, and backend integration tasks,Conducted system testing and debugging.
- Assisting in generating dynamic financial and performance reports.

VenturePal System

- Assisting in the development and maintenance of an MSME innovation and investment platform using Angular, Django, PostgreSQL, and API integrations.
- Supporting MSME registration and application workflow functionalities.
- Implementing system updates, feature enhancements, and bug fixes.
- Providing technical support and troubleshooting for platform users.
- Collaborating with stakeholders to gather requirements and improve system functionality.
- Assisting in enhancing user experience and platform performance.

ICT Authority Presidential Digital Talent Programme (“PDTP”) Intern	Nairobi, Kenya Jan. 2025 – Dec.2025
--	--

Selected as a PDTP intern under the ICT Authority to contribute to digital transformation initiatives at the Nairobi City County Government, focusing on software development and data systems. The PDTP programme is designed to equip recent graduates with hands-on experience in core ICT domains, including Networks & Digital Infrastructure, Software Development, Information Security, Data Analytics, and Digital Marketing.

Key Responsibilities:

- Contributed to the development of the Project/Performance Information Management System (PIMS), enabling county officials to effectively track, assess, and report on ongoing development projects.

- o Supported frontend implementation using Angular, integrated with Python-based backend services and PostgreSQL databases for structured data storage and reporting, while ensuring high data accuracy and user-friendly interfaces.
- Participated in the development of the VenturePal system, a digital platform designed to support innovators and Micro, Small, and Medium Enterprises (MSMEs) throughout idea development, validation, and business growth.
 - o Collaborated on system development using a shared Angular frontend, Python backend APIs, and PostgreSQL for reliable data management and reporting.
- Designed and implemented dynamic trackers and dashboards to monitor KPIs, project timelines, and financial performance across departments, improving transparency, decision-making, and resource allocation.
- Collaborating closely with senior ICT officers, gaining mentorship in system design, software lifecycle management, and public sector IT operations.
- Collected, cleaned, preprocessed and analyzed environmental operational data from Nairobi subcounties, developed interactive Nairobi Green & Clean dashboards using Looker Studio, and contributed to early-stage machine learning initiatives by preparing high-quality datasets to support data-driven decision making for improved city cleanliness and waste management.

County Government of Baringo
Junior Software Developer Intern

Kabarnet, Kenya
May 2023 – Jul. 2023

- Assisted in the development and debugging of front-end features using React.js and ensured seamless integration with backend services through Application Program Interface (“API”) requests
- Provided technical support for hardware and software issues and improved workflow efficiency by resolving information communication & technology (“ICT”)-related problems
- Collaborated with senior developers to optimize system performance, contribute to code reviews, and document software applications

Student Device Repair Shop
Volunteer

Nakuru, Kenya
Sep. 2021 – Apr. 2022

- Provided technical support to Egerton university students and the surrounding community by resolving students’ mobile phone and laptops issues including assisting with software installation

Saos Boys’ High School
Volunteer

Baringo, Kenya
Dec. 2019 – Aug. 2020

- Managed daily office operations including phone calls, filing, scanning, and photocopying
- Prepared official documents such as letters, reports and notices.
- Performed accurate data entry for student and staff records.

HACKATHONS

Egerton University
AgChain Hackathon: The Future of Food Security and Agriculture

Nakuru, Kenya
Nov. 2021

- Led my team in a competitive hackathon sponsored by USAID, Virginia Tech, Purdue University, Egerton University, and AgUnity to develop an applet to help farmers identify pests and diseases affecting their crops and to take timely and effective actions. Won third place out of 8 competing teams for showcasing innovation in agricultural technology solutions

PROFESSIONAL DEVELOPMENT

Cyber Shujaa
Cloud and Network Security

Nairobi, Kenya
Sep. 2023 – Dec. 2023

- Completed a 3-month intensive coursework in Cloud and Network Security and developed expertise in securing digital assets and communication channels in cloud computing and network environments
- Developed skills in security monitoring, incident response and secured development practices, and in ensuring alignment with industry standards and emerging trends

SKILLS/ACTIVITIES

Skills: HTML, CSS, Tailwind CSS, JavaScript, Node.js, Express, React.js, MongoDB, Next.js, Figma, WordPress

Languages: English, Swahili

REFEREES

Eunice Kariuki

Director Governor's Delivery Unit

Nairobi County City Hall

Corner of City Hall Way, Wabera Street, and Mama Ngina Street

P.O. Box 30075-00100, Nairobi, Kenya
